

GUIDELINES

Minnesota Film Production Tax Credit Program

Introduction

The Minnesota Film Production Tax Credit Program ([MN Statute 116U.27](#)), is an assignable 25% tax credit to attract and expand film production in the state. A film production company (applicant) may receive an assignable Tax Credit Certificate for up to 25% of eligible production costs for a project that expends at least \$1,000,000.00 in a consecutive 12-month period.

Program applications are accepted on a year-round basis. Credit Allocation Certificates are awarded on a first-submitted, first-allocated basis to applicants who submit a complete application and meet the program's minimum requirements.

All projects must align with the goals and purposes outlined in Minnesota Statute 116U.27. The Executive Director of Explore Minnesota retains the discretion to deny any application if they determine that the project does not meet program objectives, is inconsistent with the legislative intent, or raises concerns about budget integrity, responsible management, or equitable use of state resources.

Submission or conditional approval of an application does not guarantee that the applicant will receive a tax credit. The Executive Director of Explore Minnesota has sole discretion to approve or deny funding, including the right to rescind approvals based on new information or noncompliance with program expectations.

TAX CREDIT ALLOCATION LETTER and NEXT STEPS

The tax credit allocation letter verifies that the project has been approved, and the amount of credit allocated. The amount stated is a "not to exceed amount." If the project goes over budget, the award will be limited to the amount initially approved. If a project spends less than the approved amount, the project will only receive credit based on the actual amount spent. Only Minnesota expenses incurred as of the date of the letter will be deemed eligible.

Additionally:

- On the day principal photography begins in Minnesota, the applicant is required to submit a Project Start Certification by email to MNfilmtaxcredit.tour@state.mn.us
- Daily call sheets to the same email are required

FINANCIAL COMPLIANCE/COST VERIFICATION REPORT

- Within 30 days of project completion the applicant commissions the Cost Verification Report by a [MN licensed CPA](#). This report must be prepared in accordance with generally accepted accounting principles and will verify the amount of eligible production costs related to the project. Provide the Cost Verification Report Guide and Agreed Upon Procedures and Final Production and Economic Impact Report to your CPA at the time

of engagement. All report preparation costs are to be paid for by the production company and are NOT considered an eligible expense for the incentive program.

- Within 30 days of report completion by MN licensed CPA, applicant provides Cost Verification Report and Final Production and Economic Impact Report to Explore Minnesota Film. Explore Minnesota Film can request additional documentation (receipts and/or invoices), reviews the report, determines the final credit amount, and issues a Tax Credit Certificate.
- A Tax Credit Certificate is issued in approximately 90 days from receipt of the Cost Verification Report and Final Production and Economic Impact Report. The Tax Credit Certificate will not exceed the Allocation Certificate amount regardless of actual eligible expenditures. Tax Credit Certificates are issued for the taxable year in which the twelfth month of the consecutive 12-month period lands
- Applicant files for the credit on its Minnesota tax return filed with the Minnesota Department of Revenue (MNDOR). In the event the Tax Credit Certificate holder elects to assign the certificate to another taxpayer, the assignee must notify MNDOR within 30 days of the date of assignment. For questions on claiming the credit, visit the [Department of Revenue Film Production Credit](https://www.revenue.state.mn.us/film) site or email businessincome.tax@state.mn.us
